

C20 SUMMIT SIDE-EVENT

Stronger together – Perspectives on C7 and C20 alignment

On 01 January 2022, Germany has assumed the G7 Presidency. VENRO and the German NGO Forum on Environment and Development have been appointed by the German Government to coordinate the Civil7.

In this year's C7 process, it has been a priority not only to represent the civil society's voices from G7 states but to function as a platform for global civil society. Thus, it has been a central goal to include international actors, especially from the global south, to engage in the C7 working groups and make their voices heard.

Moreover, this approach has aimed at strengthening the cooperation between different fora like C7 and C20. To intensify the exchange on a personal level, C7 representatives will participate in the C20 summit.

At the side-event key priorities and results of this year's C7 process will be presented and the challenges and future of the process will be discussed. These insights will be used for a discussion between C7 and C20 on how cooperation can be intensified and how the work can be better aligned.
